Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: 1-18 and 28-45, drawn to steps of searching for products or services listed for sale on a plurality of web sites, classified in Class 707, subclass 3.

Group II: Claims 19-26, drawn to steps of transmitting an offer for sale of a product or service to a plurality of web sites, classified in Class 707, subclass 104.1.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as searching for products or services listed for sale on a plurality of web sites which is distinct from the method for transmitting an offer for sale of a product or service to a plurality of web sites of invention Group II, See M.P.E.P. § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy Pardo whose telephone number is 571-272-4082. The examiner can normally be reached on Mon-Thur.
